

This letter is for co-authors,

Dear Editors,

I have worked to develop the book chapter named as "A Literature Overview of the Sustainable Solutions in Air Transport Industry: Future Prospects" for Proceedings of the "*Sustainable Solutions in Aviation: Proceedings of International Symposium on Sustainable Aviation 2023*" book. The **publishing consent and all contributions** were under my knowledge. I'm accepting to publish this paper in the mentioned book. Also, I'm aware of the **ethical rules of academic publishing** and **Springer Natures recommendations** in the link follows.
